**DETAILED ACTION**

1. Applicant's amendment filed on 12/31/03 has been entered.  
Claims 1, 4, 5, 7, 8, 11, 13-16, 18, 26-28 are pending.
2. This application contains claims directed to the following patentably distinct species of the claimed invention: The distinct species are the identity of the chemical indicators. Applicant is required to elect a chemical indicator from the following:
  - a. dye,
  - b. ink,
  - c. vital stain,
  - d. Evans blue,
  - e. natural coloring,
  - f. oxide,
  - g. chlorophyll,
  - h. charcoal,
  - i. chalk,
  - j. pH indicator,
  - k. peroxidase triggered compound,
  - l. fluorescent compound,
  - m. radioactive tag, or
  - n. gold particles.

These species are distinct because they differ in structure and physical properties.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 4, 5, 7, 8, 11 and 26-28 are generic.

Art Unit: 1644

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yunsoo Kim whose telephone number is 571-272-3176. The examiner can normally be reached on M-F, 9-5.
